

## ICWES 2022 Write Up

Moving towards leading a more sustainable and environmentally friendly future, the University of Nottingham Malaysia Campus (UNMC) organized the 1<sup>st</sup> International Conference on Water and Environment for Sustainability (ICWES) in December 2022. This conference was held in conjunction with ASIAWATER 2023 which brings together more than 120 world experts on water and environment under one roof.

With the theme “Towards Sustainable Water and Environment Management for The Future”, the conference focused on addressing urgent concerns towards the state of the world’s water and environment ecosystem. EcoClean Technology Sdn Bhd (ECT) was privileged to have signed a Memorandum of Understanding (MOU) with UNMC to exchange knowledge, insights, strategies, and engineering innovations to tackle this crisis.
